

HYMER

HYMER Motor Caravans 2021

*EVERY JOURNEY BECOMES
AN EXPERIENCE.*

EUROPEAN INNOVATION AWARD
 FOR THE CARAVANING INDUSTRY
 2020

GERMAN INNOVATION AWARD '20 WINNER

OUR EXPERIENCE PUTS US AHEAD OF OUR TIME.

HYMER has always been dedicated to combining innovation with vision. From the outset, Erwin HYMER and Erich Bachem dreamed of forever changing the experience of travelling. This pioneering spirit is lived today more than ever. New engineering approaches and technologies are enabling us to break new ground and shape the future of motorhoming. Our VisionVenture concept

car shows what modern van life could look like in 2025 – a new milestone in terms of design, self-sufficiency and lightweight construction. We will certainly be putting many of these innovative and customer-focused solutions on the road in our production vehicles in the near future.

1957

Erich Bachem ("ERIBA") and Erwin Hymer build the original "Troll", the first caravan.

1978

The innovative PUAL body shell is developed and sets new standards when it comes to stability.

1981

The HYMER B-Class is introduced and over the following years becomes one of Europe's most popular motorhomes.

2004

In October, the 100,000th HYMER motorhome rolls off the production line in Bad Waldsee.

2011

Opening of the Erwin Hymer Museum opposite the company's headquarters in Bad Waldsee.

2019

We present the new icon of our motorhome line: the Hymermobil B-Class MasterLine.

HYMER Exsis

DISCOVER THE FUTURE OF THE 3.5-TON CLASS.

The Exsis demonstrates our many years of experience in the field of lightweight construction: even when almost fully kitted out with two people on board, a full fresh water tank and two full gas bottles, there are still payload reserves of up to 450 kilograms depending on the layout. An all-time best in the 3.5-ton category. The exterior of the Exsis also boasts a unique design and ingenious features. Amongst other things, its aerodynamic design ensures low fuel consumption, quiet driving and a perfect view. The innovative bodywork technology endows the Exsis with excellent insulation values, stability and durability.

HYMER EXSIS 580

The new generation of the Exsis builds on the Fiat low-frame chassis, which is optimised for motorhomes. It impresses with a brand new interior concept and is a future-proof embodiment of the new HYMER design language. The integrated and semi-integrated models of the Exsis are available in the 580 layout.

The existing Exsis is still available with the proven combination of Fiat chassis cowl and ALKO frame – in a large selection of layouts and modern furniture finishes.

Layouts are shown on page 20.

THE EXSIS 580.

COSINESS IN ABUNDANCE.

Thanks to a new design and new surface materials, the living area is now even more generous and inviting.

HARMONIOUSLY INTEGRATED.

The 32-inch flat-screen TV in the new Exsis 580 is blended perfectly into a recess in the bathroom wall. This elegant solution ensures an excellent view from the driver and passenger seats.

PROFESSIONALLY PREPARED.

The new kitchen worktop creates an extremely open and generous sense of spaciousness – thanks to a standard 142-litre refrigerator, integrated rubbish bin in the kitchen and an optimal use of space, for example by means of a practical worktop extension.

ROOM TO BE YOU.

LIMITLESS PRIVACY.

The extremely spacious comfort bathroom features a large, separable shower and generous space in front of the washbasin unit.

PLENTY OF ROOM FOR SWEET DREAMS.

The single beds in the new Exsis 580 can be optionally equipped with a connecting cushion between the mattresses. The numerous overhead lockers and floor-to-ceiling wardrobe make your sleeping comfort complete. Shown here are the overhead lockers above the rear bed, which are available as an optional extra.

THE HEIGHT OF CONVENIENCE.

The extra large rear bed is easily accessible via the new, fold-out comfort steps with non-slip coating.

FEEL LIKE YOU'VE FINALLY ARRIVED.

TOTAL RELAXATION.

The cab is perfectly integrated into the living area for a real home-from-home feeling, pictured here in the Exsis-i 678 with modern Sauvignon Oak furniture finish and Janeiro fabric combination. The optional overhead lockers instead of the fold-down bed extend beyond the driver and front passenger doors.

JUST LIKE A HOME CINEMA.

Thanks to the optional 32-inch flat-screen TV, the Exsis creates a fabulous home cinema feeling even when on the road.

DELIGHTFUL COOKING.

A generous corner kitchen is part of the standard equipment in many Exsis models. The readily accessible overhead lockers and large, flexibly partitioned drawers are a boon when pottering in the kitchen.

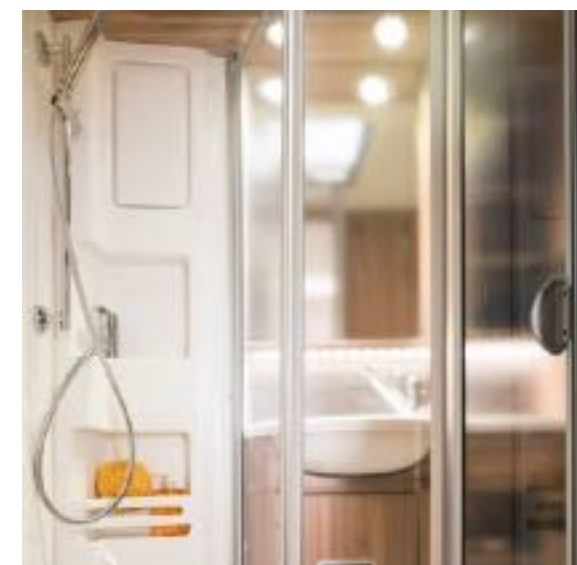

AMPLE SPACE, LIGHT AND QUALITY OF LIFE.

THE BED OF YOUR DREAMS.

The position of the fold-down bed above the cab offers maximum freedom of movement and headroom. It offers a comfortable bed surface extending across the entire width of 1.50 m.

COMFORT BATHROOM.

The redesigned comfort bathroom with large shower space offers plenty of elbow room, both in front of the washbasin and while showering. Generous bathroom cabinets with plenty of storage space make it easy to keep all your accessories within reach. The shelves are fitted with tensioning straps as standard to keep small and fragile items secure, even when the vehicle is in motion. The bench toilet features an ergonomic sitting position and is easy to clean.

EDITION MODEL

HYMER Exsis Pure

FOR PURE TRAVEL PLEASURE.

One edition model, one price. We're making it easy for you to choose the perfect HYMER vehicle. The Exsis Pure comes with a comprehensive equipment package that leaves nothing to be desired in terms of driving and living comfort. And all on a new Citroën chassis.

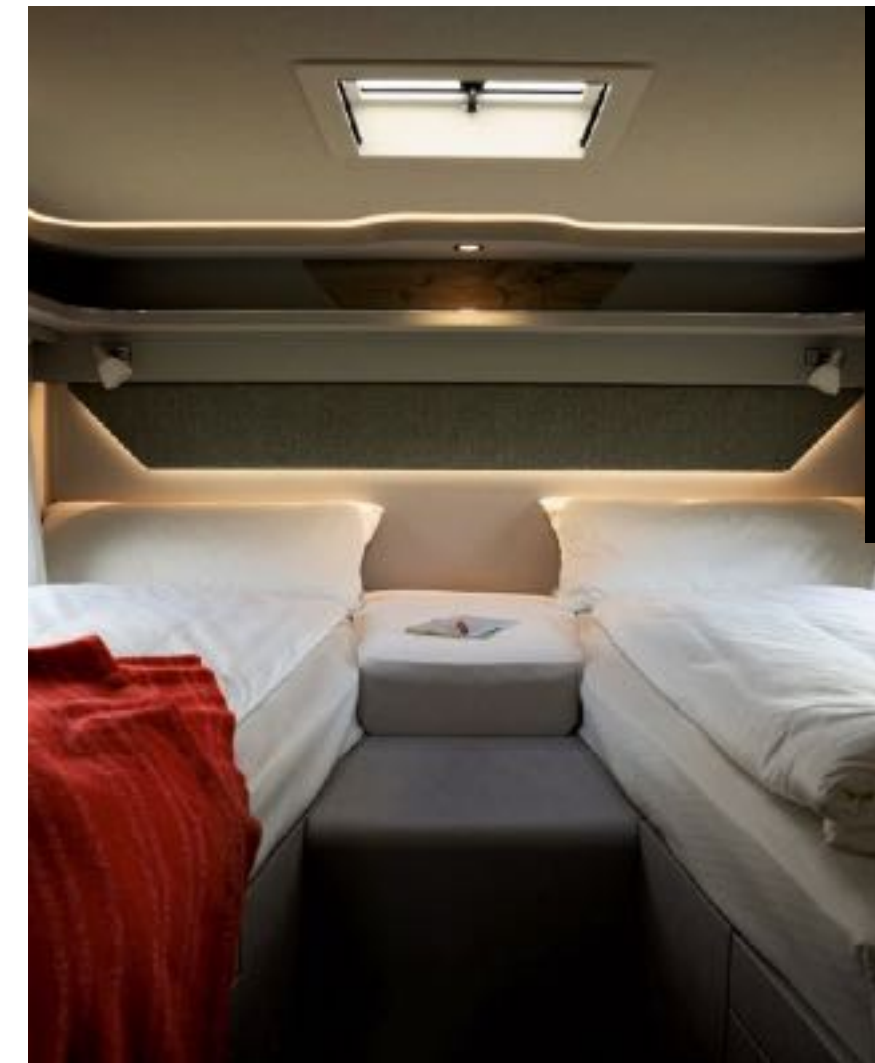

Its all-round lightweight construction paired with the 165 hp engine will take you effortlessly to any destination. It also features cruise control, air conditioning and 16-inch alloy wheels. Thanks to the standard fold-down bed, the integrated version can sleep up to four people.

In any case, the Exsis Pure combines intelligent interior design with living comfort. The living area is characterised by elegant interior decor in Sauvignon Oak as well as seamless, functionally integrated furniture. For example, the 32-inch flat screen TV is set into the wall of the comfort bathroom. The bathroom itself is equipped with a large shower with wooden slatted shower tray and practical bench toilet.

The twin beds at the rear are over 1.90 m in length and come with an additional central cushion for easy access. A good amount of storage space is provided under the beds and in the floor-to-ceiling, full-length wardrobe. The practical L-shaped seating area with bed conversion and foldaway table blends harmoniously into the living area and is arranged opposite a kitchenette featuring a 142-litre fridge-freezer.

The equipment package for the edition model also includes ambient lighting, automatic gas-bottle switching and an awning.

Layouts are shown on page 20.

A PERFECT MATCH FOR YOUR EXSIS.

Original accessories from Hymer make it easy to retrofit your Exsis with practical extras – whether to protect your valuables, enhance the comfort of your younger passengers, ensure safe manoeuvring or create additional storage space. For more details and additional accessories please visit www.hymer-original-zubehör.com

PASSENGER DOOR SAFE

This safe is not visible from outside the vehicle and protects your valuables thanks to special security bolts. Installation behind the original map compartment is easy and there are no awkward protruding edges. It offers enough space for all the essential items you need to bring with you on holiday, such as credit cards, mobile phones, identification documents, cash or jewellery.

CHILDREN'S BED

Highlights of the three-part extra bed for the cab include quick and easy assembly as well as compact packing dimensions. The two wooden base boards are fitted between the seating surface and the backrest of the driver's seat, and the fold-out mattress is laid on top. The mattress fits the cab dimensions precisely. A washable fitted sheet is included.

DUAL REVERSING CAMERA

The reversing camera is elegantly integrated into the third brake light and painted in the same colour as the bodywork. This allows easier and safer washing of your vehicle, as no additional holes for cable bushings or screw connections are required in the rear wall. The high-quality camera offers an excellent field of vision. You can also use it as a rearview mirror to observe the traffic behind you.

FOLD-DOWN BED ORGANISER

Ideal extra storage for HYMER owners who rarely use the fold-down bed. Simply remove the mattress and insert the made-to-measure organiser set. The eight-piece set of boxes with inserts is made from sturdy, hard-wearing plastic cavity profiles with fabric covers. For optimal stability, all boxes have double floors. For optimal protection, all the corners of the boxes are reinforced with impact-resistant plastic corners.

HYMER T-Class S

INNOVATIONS FOR YOUR HOLIDAY.

The new HYMER T-Class S is the first of its kind in many ways. The interior boasts a cosy ambience with modern designer touches that are typical of HYMER, as well as a smart lighting concept and a particularly generous feeling of space. It is also the first of our 3.5-ton models based on the proven and technologically superior Mercedes-Benz front-wheel drive chassis with original frame. And thanks to its straightforward handling, it is also the ideal first HYMER for everyone.

Layouts are shown on page 28.

THROW YOURSELF INTO YOUR NEXT ADVENTURE. RIGHT AFTER BREAKFAST.

ENSURE YOU ARE IN TOP FORM.

The new kitchen worktop appears more spacious and offers improved ergonomics.

UNIQUE DESIGN.

The completely revised design is modern, straightforward and timeless. The specially designed textured surfaces and white accents add some unique, contemporary flair. The furniture finish of the table and counter-tops radiates a charming warmth.

SIMPLY GOURMET.

The corner kitchen allows even greater freedom of movement. The floor-to-ceiling 152-litre compressor refrigerator is included as standard and offers enough room for all the ingredients you need to prepare even the most elaborate dishes.

HOLIDAYS WITHOUT HEADACHES.

The completely flat, stepless upper floor in the living area offers comfortable headroom of 2.05 m with a total floor area of 2.29 x 7.39 m.

DON'T DREAM ABOUT TRAVELLING. DREAM WHILE TRAVELLING.

BLISSFUL ISOLATION.

A restful sleep is an important part of the perfect holiday. The twin beds in the T-Class S 685 are each over 2 m long – making it easy to relax and stretch your legs.

THE PERFECT TEMPERATURE, ALWAYS.

To ensure you are always nice and warm without relying on gas, the T-Class S is the first HYMER to feature a powerful diesel heater as standard. Optional gas heating is still available.

JUST LIKE YOUR SHOWER AT HOME.

The spacious en-suite bathroom with 1.94 m headroom ensures plenty of space even for taller passengers. In addition, the space can be used as a passageway with the shower open, whereby the shower fittings disappear elegantly behind the folding wall.

T-CLASS S 695 3,500 – 4,200 kg

A PERFECT MATCH FOR YOUR T-CLASS S.

Original accessories from HYMER provide numerous customisation options your T-Class S to suit your wishes – from a comfortable extra child's berth to effective protection against sunlight and even fitting floor mats. For more details and additional accessories please visit www.hymer-original-zubehör.com

CHILDREN'S BED

Highlights of the three-part extra bed for the cab include quick and easy assembly as well as compact packing dimensions. The two wooden base boards are fitted between the seating surface and the backrest of the driver's seat, and the fold-out mattress is simply on top. The mattress fits the cab dimensions precisely. A washable fitted sheet is included.

SUNBLIND

PVC-coated textile fabric – provides privacy and protection from direct sunlight and heat, while simultaneously allowing an unobstructed view from the inside. A perfect fit and easy assembly guaranteed.

CAB CARPET

Tailor-made for your vehicle – hard wearing, easy-care polypropylene tufted velour with bonded heel protector and rubber granulate underside. Can be customised with a modern, imitation-nubuck textile border and double-stitched design, and with the HYMER logo. The mat also features an anti-slip base.

THE PERFECT CHOICE FOR THOSE WHO DREAM OF BIGGER THINGS.

HYMER ML-T – B-MC-T/I

HYMER sets new standards in this class. Enjoy the freedom of a generous interior design concept: a cosy living area, comfy seating, a well-equipped kitchen and plenty of privacy. So you'll always feel at home, even when you're thousands of miles away.

HYMER ML-T

THE ESSENTIALS ARE ALWAYS ON BOARD.

The HYMER ML-T is based on the original ladder-type frame with rear-wheel drive (also available with four-wheel drive) and an innovative lightweight construction. The result is an agile, semi-integrated vehicle that is the pinnacle of motorhome design. Comfort and convenience can be seen and felt in every detail: the level living area floor, the large seating area and the table that comes with an extension as standard are just a few examples. The HYMER ML-T also comes with a comprehensive safety package. What's more, it boasts a range of standard features and additional comfort which are unrivalled in this class.

Layouts are shown on page 38.

THE IMPORTANT THING IS NOT WHERE YOU ARE. BUT RATHER, HOW YOU GOT THERE.

MODERN SIDE KITCHEN.

A Smart-Tower refrigerator (142 litres), a hinged worktop extension and, on request, kitchen wall cladding and many additional sockets throughout the vehicle. The large side kitchen in the ML-T 580 includes deep kitchen drawers, which are slanted to increase the size of the passageway, and easily accessible overhead lockers – shown here in the Noce Cognac furniture finish.

AMPLE SEATING.

Thanks to the 360° rotating table, which can be adjusted both lengthways and crossways, the Comfort L-shaped seating area in the ML-T 580 can accommodate up to 4 people, while in the 620 model there is room for 5 people – shown here with the Noce Cognac furniture finish and Cristallo fabric combination.

ELEGANT LIVING AREA.

Planning the day ahead or simply relaxing – ideal uses for the stylish seating area, shown here in the agile ML-T 570 as an L-shaped seating area with the modern Chiavenna Walnut furniture finish with Creola imitation leather.

A LINEAR AESTHETIC COUPLED WITH MODERN CHARM.

COMFY SLEEPING OASIS.

The comfortable single beds in the ML-T 570, 580 and 620 are also available with our comfort sleeping system, which includes disc-spring bed frames and HYMER fitted sheets. On request, the single beds can be converted into a giant sleeping oasis via an additional cushion.

GENEROUS STORAGE SPACE FOR YOUR CLOTHES.

Ample space is provided for your clothes thanks to a large wardrobe under the hinged foot section of the single bed and an additional floor-to-ceiling wardrobe – in the ML-T 580 and 620.

TASTEFUL DOWN TO THE LAST DETAIL.

The beautiful and spacious comfort bathroom in the ML-T 580 offers a separable shower, a comfortable bench toilet, a high-quality washbasin made of "Cool Glass" and plenty of practical storage space.

LAYOUTS FOR THE HYMER ML-T.

ML-T 570 3,500 – 4,100 kg

ML-T 620 4,100 kg

A PERFECT MATCH FOR YOUR ML-T.

Retrofit your ML-T with ease – with original accessories from HYMER in proven quality. For example, with additional protection against heat and cold or a premium navigation system that guides you safely to any destination. For more details and additional accessories please visit www.hymer-original-zubehör.com

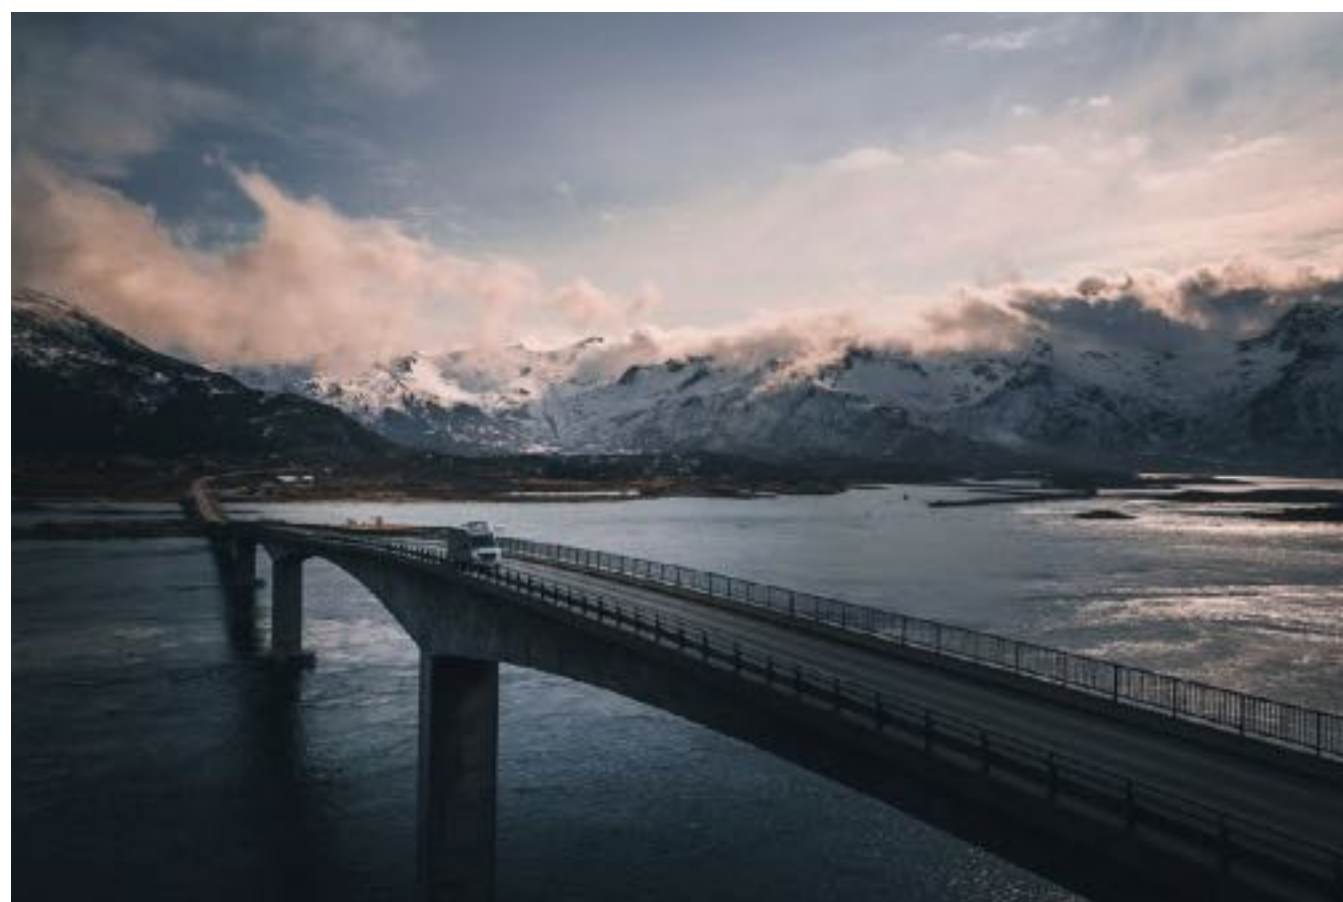

SUNBLIND

PVC-coated textile fabric – provides privacy and protection from direct sunlight and heat, while simultaneously allowing an unobstructed view from the inside. A perfect fit and easy assembly guaranteed.

INSULATING MAT SET FOR THE WINDSCREEN

This set includes the right and left piping rails for the insulating mat, as well as the corresponding cover caps. This high-quality winter insulation mat is characterised by excellent durability and a user-friendly attachment method – and remains flexible down to -30°C.

ZENEC N 966 NAVIGATION DEVICE INCLUDING MAP

The Z-N966 from the ZENEC Prime series is a high-spec DAB+ infotainment system for motorhomes. The large 9-inch screen provides brilliant images thanks to the HD display. The Z-N966 makes it easy and safe to use your smartphone in the vehicle. You can use the USB port to dock your mobile phone directly into the infotainment system – the device is certified for Apple CarPlay and Google Android Auto. Make phone calls, navigate, send/receive messages and listen to music – all supported functions can be controlled easily via Apple Siri, the Google Assistant or by using the touchscreen of the ZENEC infotainment system.

CORSICA – EXPLORING THE “ISLAND OF BEAUTY” WITH 4X4 AND SUP.

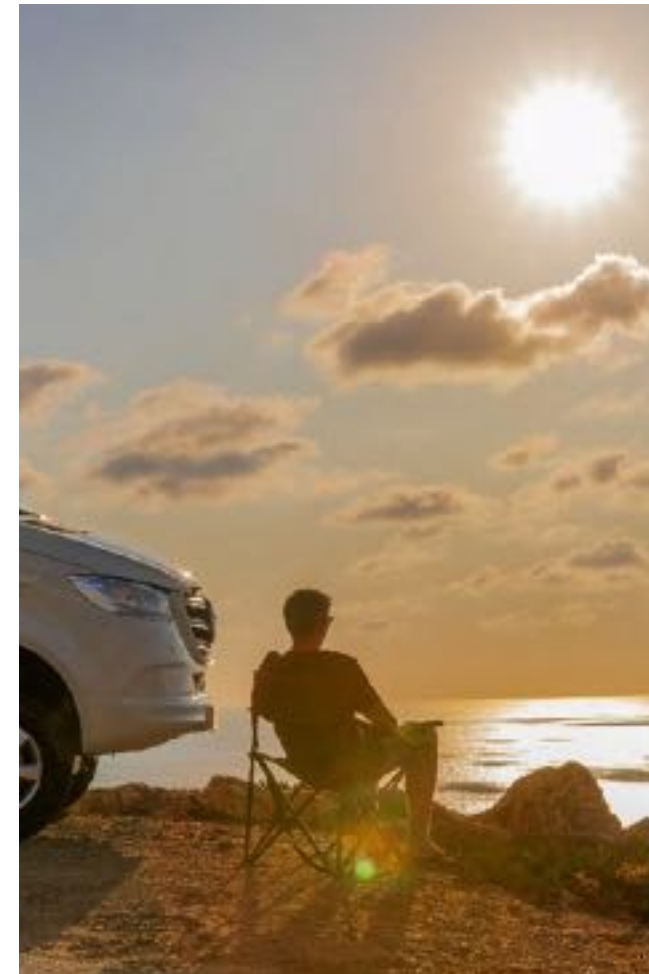

PETER LINTNER
AUTHOR

CORSICA (FRANCE)
DESTINATION

HYMER ML-T 570 4x4
MODEL

With its numerous bays, Corsica has a coastline of 1,000 km.

MUNCHING MUSSELS EARLY IN THE MORNING

And so we reach Corsica well rested, but with grumbling stomachs. Which is why we head directly to the south of the island, where our first stop, logically, is the Géant Casino supermarket. Loaded up with delicious Corsican food, the next culinary highlight is already waiting for us.

The coastal road leads us to Étang D`Urbino – the famous “shell beach” just outside Ghisonaccia. It is home to a restaurant that not only serves daily freshly harvested mussels from its own farm, but also has a beautiful terrace with a view of the lagoon. The perfect setting for our delicious seafood! Exactly what we had hoped for when we left, somewhat wistfully, our own terrace the previous evening ...

Read the full travel story and others at:

<https://www.hymer.com/de/en/travel-enjoy/travel-stories>

For us, the Corsican adventure begins on one of those late summer evenings we would love to spend sitting on the terrace with a glass of wine until dawn. However, this time the wine stays in the cellar. Just eight hours later we need to be in Livorno, which is almost 700 kilometres away, in order to reach the outgoing ferry that will take us to Corsica.

A SLEEPLESS NIGHT

And, as everyone knows, the ferry waits for no one – especially not German holiday campers. So, we hit the road and cruise past many beautiful places that are more than worth a visit: Innsbruck, Verona, Modena, Bologna and Florence – we simply skate around them and disappear into the starry, Italian night.

But when our ML-T 570 finally turns off towards the port of Livorno after a journey of almost seven hours (there is even time for a fresh espresso before boarding the ferry), those missed opportunities are already long forgotten. On the four-hour crossing to Bastia there is only excitement about finally reaching our dream island. And, of course, a short nap to catch up on the previous night's sleep.

HYMER B-Class ModernComfort A NEW GENERATION HITS THE ROAD.

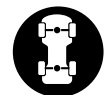

The successful partnership between Mercedes-Benz and HYMER has resulted in vehicles that are exceptionally innovative, safe and light. As the world's first motorhome, the new B-Class ModernComfort impresses with a combination of the new Sprinter chassis cowl from Mercedes-Benz and HYMER's internally developed, award-winning SLC chassis.

Thanks to its extremely lightweight yet sturdy construction, enhanced safety features and outstanding ride comfort, this sporty-elegant motorhome ensures you are always one step ahead – safely below the 3.5-ton limit and with a level floor in the living area.

Layouts are shown on page 50.

FEEL AT HOME ON THE ROAD.

MODERN AMBIENCE.

Relaxing as a couple or enjoying time with friends? You can do both in the spacious seating area with the Delfi fabric combination and Noce Cognac furniture finish. In addition, the modern LED lamps let you create your own individual lighting mood.

FEEL GOOD RIGHT FROM THE START.

A recess in the rear wall of the washroom allows a 32-inch LED TV to be harmoniously incorporated into the overall design of the ModernComfort 580's living area. The driver and passenger seats afford an excellent view of the TV, which can even create a "fireplace feeling" if desired. The bed with optional 2.15 m bed surface is visible in the background – shown here in the Grand Oak furniture finish and with the Janeiro fabric combination.

COOKING HAS NEVER BEEN SO MUCH FUN!

The Noce Cognac furniture finish lends the interior of the B-Class Modern-Comfort a modern, fresh and high-class ambience. The result is an impressively open and generous sense of space, since all areas can be optimally utilised. Thanks to the standard 142-litre refrigerator, integrated rubbish bin in the kitchen and practical worktop extension, small snacks and large menus can be prepared easily and conveniently.

COMFORT FROM HEAD TO TOE.

EXTRA SPACE, EXTRA WELL-BEING.

In the B-Class ModernComfort 680/690, the toilet and shower are separated for even more privacy and comfort. At up to 1.94 m, the shower offers sufficient headroom even for taller people.

COMFORTABLE FOLD-DOWN BED.

The B-Class ModernComfort integrated motorhomes include a wide, comfortable fold-down bed, which lowers right down above the cab and is firmly supported in the sleeping position, so that nothing gets in the way of a restful night's sleep. The fold-down bed can be optionally extended to form twin beds via pullouts.

HOW ABOUT A LITTLE EXTRA?

Good news for taller travellers: the twin beds in the 580 layout are available in a length of 2.15 metres on the right-hand side in addition to the traditional size of 192 cm by 86 cm. An extraordinary feature in a vehicle with an overall length of under 7 metres – and there is still room for the half-height wardrobe and additional linen drawer. The overhead lockers in the rear embody the vehicle's new design language.

SAFE FROM TOP TO BOTTOM.

The rear bed, which has been converted into a giant sleeping oasis, can be reached – and exited – conveniently and now even more safely via the new fold-out steps. The generous comfort steps are equipped with a non-slip coating to match the flooring.

EDITION MODEL

HYMER B-Class ModernComfort WhiteLine

MAKES THE COMPETITION LOOK PALE.

The WhiteLine edition model built on the Mercedes-Benz Sprinter chassis combines maximum safety and modernity with driving dynamics and comfort. Inside and outside, everything embodies the spirit of the "Next Generation".

The exclusive special decals ensure a dynamic design. The familiar HYMER high-tech body picks up the lines of the Mercedes chassis and the visible edges are optimally designed. Sporty touches are added by the rear light mouldings and the garage with its diffuser design.

Inside, the WhiteLine captivates with a new generation of furniture in the colours Grand Oak and Noce Cognac. The upholstery materials are impregnated with "lotus effect" stain protection. The level living area floor and optimised design of the storage space contribute to the generous feeling of space. The equally spacious comfort bathroom includes a separate, partitionable shower.

The WhiteLine comes as standard with a 9G-TRONIC automatic transmission and an engine that produces 170 hp. Other highlights include the latest generation of safety systems, cruise control, an electric parking brake as well as automatic daytime running lights and headlights.

100% ready for the road

DOG-WALKING IN THE MOUNTAINS – PURE RELAXATION.

HANNES HINTERSEER
AUTHOR

DOLOMITES
DESTINATION

HYMER B-MC I 580
MODEL

Being out and about with your four-legged friend means getting better acquainted with your surroundings. Daily play sessions and walks or hiking tours automatically draw dog owners out into nature. The walk is not just for the dog's benefit! You cannot help but enjoy this feeling of freedom.

The Dolomites are perfect for this. An impressive mountain range with snow-covered peaks, even in summer. And the clear mountain lakes are a welcome refreshment for your dog. After an active day, let your gaze wander into the distance as you both enjoy some well-earned dinner – before settling happily into your comfortable beds.

Comfort and safety – also for man's best friend.

When on holiday with a dog, the most important thing is that your four-legged-friend can travel safely and feels comfortable in unfamiliar surroundings, especially at night. A motorhome offers enough space to act as a very comfortable "kennel". Of course, safety must also be ensured during the journey; however, this is not a problem with the right equipment ...

For more travel stories visit
www.hymer.com/de/en/travel-enjoy/travel-stories

A PERFECT MATCH FOR YOUR DOG

Depending on your dog's size, it will find a safe retreat in the small or large aluminium **HYMER dog box**, e.g. while on the road. For a cosy nap during the day or night, there is also our made-to-measure and easy-to-clean **HYMER dog bed** (for Fiat and Mercedes) in imitation leather, including comfort cushion and leash. The practical **flex&leash dog leash** can be easily wrapped around the table leg and offers freedom of movement from 85 cm to 150 cm. The **HYMER awning holder** is also a useful aid – it can be attached via a suction cup to smooth surfaces and the vehicle's exterior. You can also attach the leash to it. By the way, the **HYMER organiser** has space for all the little things you need for your dog. The two pockets can be integrated into the standard main entry door in place of the elastic straps.

WHEREVER YOU GO, TAKE ENJOYMENT WITH YOU.

COMFORTABLE SEATING.

The seating in the B-SL 704, pictured here, is upholstered in Napoli leather. Your motorhome can be optionally equipped with front cupboards instead of the fold-down bed – for even more roominess and storage space.

INTELLIGENT STORAGE.

As well as large servo soft-close drawers, the B-SL 704 is equipped as standard with a half-height kitchen cabinet with larder unit and an elegant window panel.

LONG BENCH SEATS.

The comfort seating area in the B-SL 704 comprises a large L-shaped bench seat with an extra-wide opposing bench seat – optionally available in Napoli leather. The optional high-quality, round table can be pulled out easily to create additional room for guests.

HANDY PULL-OUT SHELF.

Above the sink there is an extremely useful pull-out shelf for kitchen appliances, equipped with its own 230 V socket. On request, the kitchen is also available without a pull-out shelf.

HEAD TO THE ENDS OF THE EARTH. AND THEN START ALL OVER AGAIN.

BEAUTIFUL AND PRACTICAL.

With an additional, floor-to-ceiling wardrobe in the 704 there is no excuse for creases in your evening wear – and plenty of room for all your favourite outfits.

SEPARABLE AREAS.

Enjoy a shower with a large standing area that is not obstructed by the wheel arches. In addition, the spacious en-suite bathroom can be screened off at the front and rear to create a dressing room.

SINGLE BEDS OR SLEEPING OASIS.

The two generously proportioned single beds in the rear of the B-SL 704 are 200 cm long and can be extended as standard to create one extra-large bed surface. A generous wardrobe is concealed below the foot of the right bed.

A PERFECT MATCH FOR YOUR SUPREME LINE.

You can equip your SupremeLine for even greater safety and comfort – thanks to original accessories from HYMER. For example, these extras allow you to efficiently keep out the cold, locate your HYMER anywhere in the world or keep digital data about your vehicle permanently in view. For more details and additional accessories please visit www.hymer-original-zubehör.com

INSULATING MAT SET FOR THE WINDSCREEN

This set includes the right and left piping rails for the insulating mat, as well as the corresponding cover caps. This high-quality winter insulation mat is characterised by excellent durability and a user-friendly attachment method – and remains flexible down to -30°C.

RETRACTABLE STORAGE BOX, 60 CM WIDE

The practical storage box enables the user to comfortably remove both small and large items from the floor storage compartment. The storage box glides on easy-to-assemble aluminium profiles that are screwed and bonded into place in the double floor. The box is sealed to prevent leakage of water. An internal anti-slip mat and the aluminium profiles including fastenings are included in the scope of delivery.

ANTI-THEFT TRACKING – VEHICLE DEFENCE POWERED BY VODAFONE

Hopefully, your motorhome will never be stolen. However, should the worst happen, the dual GPS system will keep tabs on its location. This battery-powered system can be easily installed in any number of places in or on the vehicle. If required, it can also be refitted to a different vehicle with ease. If the vehicle is reported as stolen to the alarm centre, our employees will locate the system and initiate the recovery procedure. The retrieval of your HYMER vehicle will always be handled by the local police authorities, with whom the alarm centres are constantly sharing information.

E-CONNECT INCLUDING TYRE-PRESSURE MONITORING SYSTEM

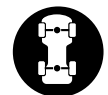

The E-Connect is the centrepiece of the E-Connect system. The module is connected to a 12 V supply and then receives data about your motorhome. With the aid of the user-friendly E-Trailer app, you can then access this data at your convenience. For example, you can view information about current tyre pressures and temperatures thanks to the "E-Pressure" feature. To install E-Pressure, simply replace your current valve caps with the new E-Pressure valve caps. Also included in the contents are the "E-Level" and "E-Volt" modules which are activated simply by scanning the QR code.

HYMER B-Class MasterLine

AS UNIQUE AS YOUR JOURNEY.

Mount Everest. The Eiffel Tower. The Mona Lisa. Some things are so unique that they redefine an entire genre! HYMER is one of them. Through over 60 years of hard work, we have ensured that our name is not only a guarantee of quality and technical know-how, but also a synonym for the motorhome itself. With the new B-Class MasterLine, we have created a vehicle that truly lives up to this claim. Treat yourself to the journey of a lifetime – in the HYMER among motorhomes.

Layouts are shown on page 70.

SLC chassis

LED headlights and hybrid rear lights

Large garage

GRP front, roof and rear

65 cm entrance door

Garage loading capacity up to 450 kg

HOME FROM HOME.

PERFECT IN EVERY DETAIL.

Thanks to the Duo-Core upholstery concept with LoungeComfort system, the generous L-shaped seating area is so comfortable it is almost certain to become your favourite spot. In the integrated 780 it also features a drawer as standard and blends harmoniously into the kitchen area.

OUTSTANDING DESIGN.

A feast for the eyes. Rather than dividing the interior into separate room elements, we have instead created a spatial flow that is cleverly enhanced by our new lighting concept. This makes the interior appear roomier and more spacious than ever.

YOUR CINEMA ON THE ROAD.

Thanks to the optional electrically movable 32-inch TV, you can experience top-class entertainment even when travelling.

GOURMET KITCHEN ON WHEELS.

The extra-wide kitchen is heaven for those who enjoy cooking. The kitchen is available as standard with deep drawers and servo soft-touch closing mechanisms, integrated kitchen wall panelling, the optional hybrid cooker and a generous work surface – and makes cooking an experience in its own right.

YOUR SANCTUARY – ANYWHERE IN THE WORLD.

LIKE SLEEPING ON AIR.

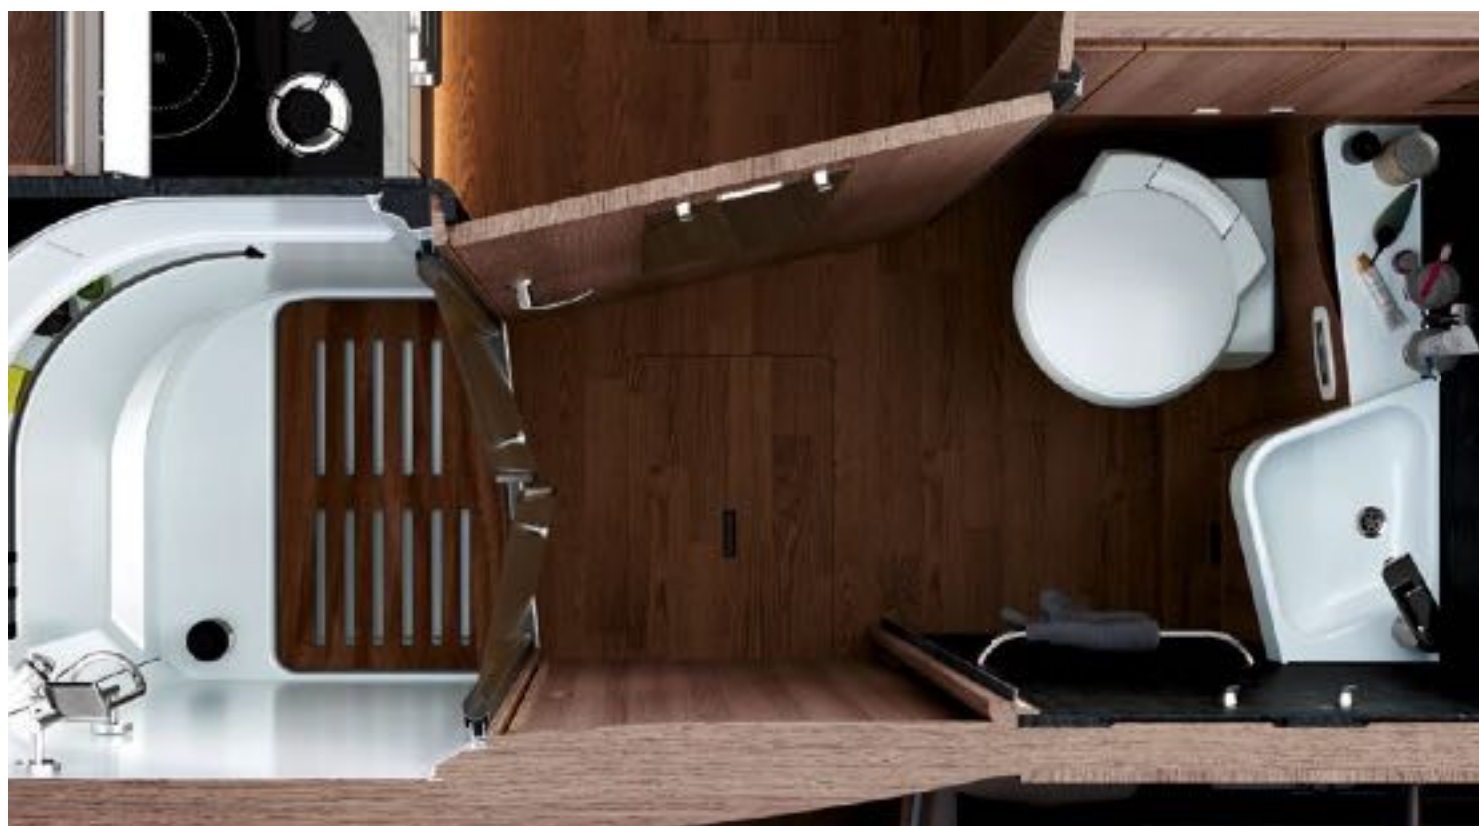

For the perfect night's sleep, the bedroom in the new B-Class MasterLine offers two extremely comfortable beds that are over 2 m long and 89 cm wide. Available as standard with our comfort sleeping system, they can also be converted into a large bed surface on request.

SAFEGUARDING YOUR PRIVACY.

The bathroom features a separate shower cubicle with up to 1.94 m of headroom, which can be easily separated from the living area by closing the intermediate door. Thanks to real glass doors it provides some genuine home comfort.

YOUR PERSONAL WELLNESS TEMPLE.

The saloon bathroom (880/890 layouts) including towel radiator, shower, washbasin, double-door wardrobe and magnetically adjustable make-up mirror invites you to enjoy relaxing spa moments. The separate toilet provides additional privacy.

LAYOUTS FOR THE HYMER B-CLASS MASTERLINE.

B-ML SEMI-INTEGRATED MODELS

B-ML T 780 3,880 – 4,500 kg

B-ML INTEGRATED MODELS

B-ML I 780 4,430 – 4,500 kg

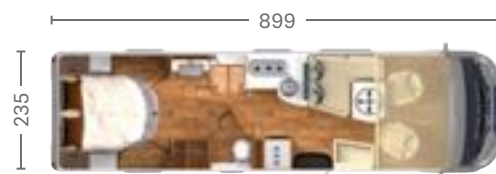

B-ML I 790 4,430 – 4,500 kg

B-ML I 880 5,500 kg

B-ML I 890 5,500 kg

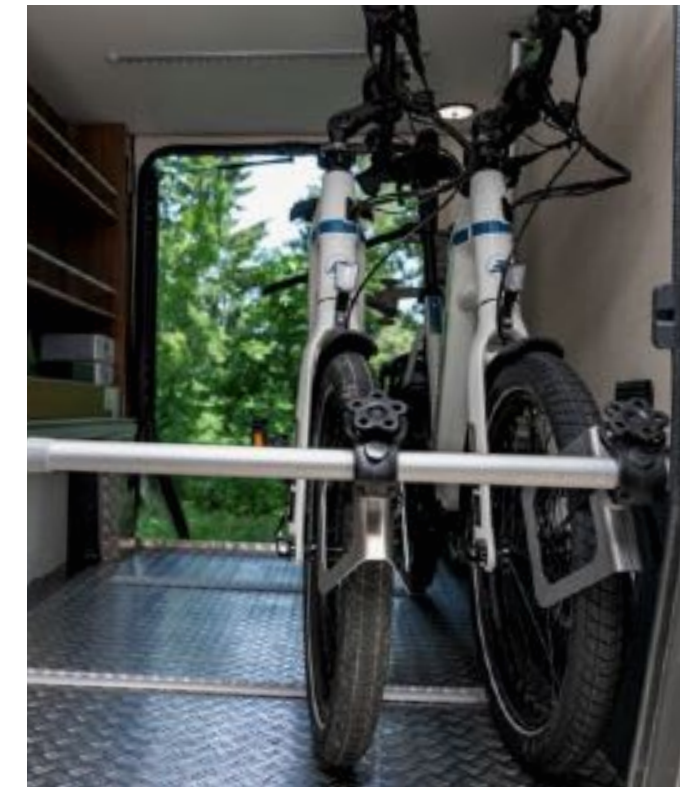

A PERFECT MATCH FOR YOUR MASTERLINE.

There isn't always a tree or other handy object nearby to which you can secure your bike. Therefore, use practical original accessories from HYMER. We also have a solution that ensures safe transport of your bikes. For more details and additional accessories please visit www.hymer-original-zubehör.com

FOLD-DOWN BED ORGANISER

Ideal extra storage for HYMER owners who rarely use the fold-down bed. Simply remove the mattress and insert the made-to-measure organiser set. The eight-piece set of boxes with inserts is made from sturdy, hard-wearing plastic cavity profiles with fabric covers. For optimal stability, all boxes have double floors.

SLUMBER SET

The HYMER slumber set consists of the following: one HYMER functional blanket and one HYMER performance pillow, matching bed linen in Migratory Birds or Paisley furniture finish, includes complementary cushion.

BIKE CARRIER

With the HYMER Bike Carrier you can easily and efficiently secure up to two bicycles or e-bikes in the rear garage. The main element is the vertical support pole for the bicycle holding bracket, which is permanently installed inside the vehicle. The support pole can be individually adapted to your rear garage in just a few simple steps, making the actual loading process a breeze. If required, the system can be expanded by one bicycle at a time – up to a maximum of four bikes.

ATLANTIC ROAD – THE MOST BEAUTIFUL STREET IN THE WORLD.

ANDREAS SAWITZKI
AUTHOR

NORWAY
DESTINATION

B-CLASS MASTERLINE 780
MODEL

THE JOY OF TRAVEL

The entrance to the port of Gothenburg is spectacular: the Stena Line ferry only narrowly fits underneath the Älvsborgbron bridge. The masterly performance of the crew is especially evident from our vantage point on the top deck. After we dock, everything happens very quickly – we are back on the road towards Kristiansund in no time. We have allowed eleven hours to complete the approximately 850-kilometre drive to the Atlantic coast; however, it ends up taking us a little longer due to some very worthwhile stop-offs.

In Norway almost everything takes place outdoors. A real paradise for outdoor fans!

To describe the journey in the HYMER as comfortable would be an understatement. We feel like royalty the moment we step on board ...

Read the full travel story and others at
www.hymer.com/de/en/travel-enjoy/travel-stories

The Stena Line ferry glides serenely through the Archipelago of Gothenburg, accompanied by screaming seagulls. Our HYMER B-Class MasterLine, almost eight metres long and three metres tall, rolls easily to its appointed place inside the hull. After a relaxed evening with an excellent buffet followed by a restful night, we stand on deck and enjoy the new morning. Travelling by ferry to your destination puts you in a holiday mood right from the start. Like a switch being flipped, relaxation sets in spontaneously the moment you check in. We grab our bags and make our way to our cabin. We're all set. We opted to travel via Gothenburg because we want to check out the Swedish west coast. The traditional route via Oslo, on the other hand, would have saved us around three hours of driving, but we would have missed out on Sweden's incredibly beautiful landscape.

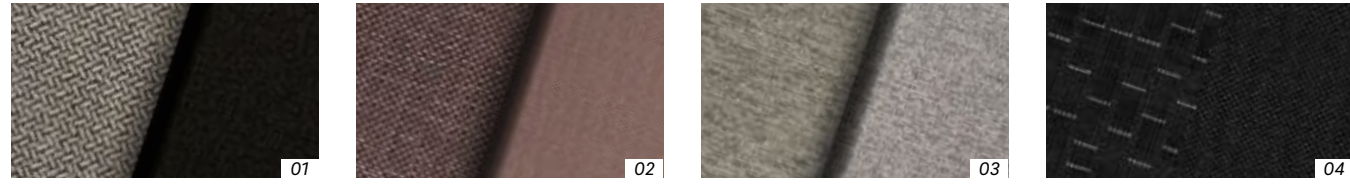

A single picture of the Atlantic Road – called "Atlanterhavsveien" in Norwegian – was enough to make up our minds. The photo showed a lonely street in the middle of the sea, surrounded by thunderous waves, steadfastly defying the forces of nature. Such striking symbolism! It doesn't take us long to load the motorhome and set off for the north. Our e-trekking and mountain bikes are also on board, as we want to experience this part of the coast both on and off-road by bike.

THE INTERIOR AT A GLANCE.

Upholsteries, leather designs and wood finishes.

HYMER ORIGINAL PARTS.

A perfect match.

Discover our wide range of innovative solutions that are available in the categories interior, exterior, chassis system, travel and transportation. With HYMER Original Accessories you can rest assured you've made the right choice – thanks to their perfect fit, impeccable

workmanship and original quality. HYMER Original Accessories are not available direct from the factory, but are instead ordered and retrofitted exclusively via your HYMER dealer. You can find the full range of HYMER accessories online at www.hymer-original-zubehör.com

REAR VISION

The E-Connect system lets you conveniently view the most important data about your motorhome, such as the current vehicle orientation or tyre pressure, via the E-Trailer app on your smartphone.

ANTI-THEFT TRACKING AND VEHICLE MONITORING

Effectively safeguard your vehicle against theft – thanks in part to the Europe-wide service network of our partner Vodafone. The "My Connected Car" app can do even more: manage geofencing, Car Finder, etc.

SELF-SUFFICIENCY PAR EXCELLENCE

The HYMER Smart Battery System gives you the advantages of two battery technologies (AGM + LI) and consequently extends your self-sufficiency from an average of 1.5 days to 5.5 days, while also increasing the life of your battery from 3 to 10 years. Available in blocks of 6 or 2.

MULTIMEDIA PACKAGE

Upgrade package specifically designed for the Mercedes-Benz Sprinter, consisting of the ZENEC N 966 (with 3 years or optionally 5 years of map updates and FREEONTOUR integration) and the dual reversing camera, which is integrated in the third brake light. Please note: radio preparation is required! Includes a radio switch to operate the system without starting the engine. Also available for Fiat models.

STAY WARM, FEEL GOOD

A bed that keeps you at the perfect temperature is a must for a relaxing and sound night's sleep. The electric blanket simply needs to be connected to a 12-volt socket, which means it can be conveniently used when on the road.

FOR YOUNG SLEEPYHEADS

Measuring 160 x 70 cm, the HYMER children's bed provides an extra berth and can be easily fitted in the cab of the Fiat Ducato and Mercedes-Benz Sprinter. Updated version now available.

A PERFECT FIT

Custom-made, high-quality cab carpet made of polypropylene tufted velour with edging in a nubuck design. The carpet is secured against slipping and is additionally equipped with a heel guard.

ENJOY THE FEEL-GOOD FACTOR WHEREVER YOU GO

Embellish your "home-on-wheels" with the multi-part, tailor-made carpet for the living area. It impresses with regard to both quality and appearance, and also feels wonderfully soft. Available for all HYMER motorhomes.

HYMER ACCESSORIES FOR THE KITCHEN RAIL

The factory-installed rail in the HYMER kitchen can be supplemented with the following products: hanging hooks, a kitchen roll holder, a spice rack and a coffee capsule holder.

WELL COVERED

You can tell an original HYMER seat cover by its optimal fit. These machine-washable protective covers include a pocket at the back and are available in beige and graphite.

WINDSCREEN COVER

Cover made from ultra-light, weather-resistant PVC-coated mesh fabric for sun protection and extra privacy. Fits perfectly and looks great. Available for all HYMER motorhomes.

THE HYMER E-BIKE – THE NEXT GENERATION

The HYMER E-Bike by FLYER begins its second life. Completely revised, it boasts an extremely modern and tidy appearance. The generous equipment and whisper-quiet Bosch motor are just as impressive as the 500 Wh battery integrated into the frame. The result is an e-bike that is perfectly adapted to the needs of campers. The warranty services are also unique and include five years' cover on the motor, display and related electronics.

BIKE CARRIER

With the HYMER Bike Carrier it has never been easier to transport bicycles in your motorhome's garage. The bicycles are simply pushed forward into the basic holder and secured by means of a holding bracket. The Bike Carrier's special feature is its extremely small footprint – and the fact that no guide rails are needed on the floor.

BE FIRST IN THE QUEUE AT THE BAKERY IN THE MORNING!

THE-URBAN HMBRG is the first electric scooter from HYMER. It is sure to be your faithful and beloved companion at any holiday destination. Whether popping out for bread in the morning, buying some groceries in the next town, or just heading to the washhouse – from now on, everything is guaranteed to be twice as much fun. There is simply no cooler way to get around – naturally, it is 100% road-legal and approved.

A HYMER TO HOLD IN YOUR HAND

Detailed 1:24-scale model vehicle based on the B-Class ModernComfort. Increase the fun factor by unfolding the roof and side wall to create two sun terraces. Exclusive edition in silver with extensive accessories.

TRAVEL IS ALWAYS IN FASHION

Enjoy being active and discovering new places? Wherever your journey takes you, HYMER has the perfect outfit.

HAPPY HOLIDAYS, GUARANTEED.

With the Erwin Hymer Group (EHG) warranty for new vehicles – in partnership with CG Car-Garantie Versicherungs-AG.

The purchase of a motorhome or caravan is something truly special. It gives you the freedom to travel independently whenever and wherever you want – your home will always be with you. We want you to enjoy carefree days and weeks in your holiday home on wheels.

authorised dealer. In the case of the EHG extended warranty for new vehicles, Car-Garantie will be liable for the full labour and material costs in the event of a warranty claim – even if your vehicle suffers multiple instances of damage, naturally. There is no excess to pay.

This also means giving you peace of mind at all times. With the EHG warranty for your motorhome/caravan, you are fully protected against unexpected repair costs. Even with a faultless vehicle, there is always the possibility of damage further down the road.

- Comprehensive coverage of repair costs
- Valid throughout Europe
- Liquidity protection in case of repair
- Exclusive use of original parts
- Increases the value of your vehicle

Get started today! When it comes to your motorhome/caravan, the EHG extended warranty for new vehicles reliably protects you from unwelcome financial surprises – even after the end of the warranty period. You can request the warranty for 12, 24 or even 36 months from your

The extended warranty is available from all participating HYMER dealers in Germany and Switzerland.

	12 months	24 months	36 months
	Price overview¹		
Motorhome Vehicles with permissible laden mass up to 4.5 t	549.00 €	999.00 €	1,499.00 €
Caravan	229.00 €	439.00 €	699.00 €

Should you decide to buy a used motorhome, the EHG also offers the ideal product – our used vehicle warranty. Please ask your authorised HYMER dealer for details.

1) *As of 07/20: recommended retail price including statutory VAT. 2) Includes the two-year manufacturer warranty and three-year extended warranty
Note: The extended warranty is offered by CG Car-Garantie Versicherung AG, Freiburg, in accordance with the applicable warranty terms and conditions.

THE HYMER SUPER LIGHT CHASSIS (SLC).

FRESH WATER AND WASTE WATER TANKS

with large capacity (180 l fresh water, 150 l waste water) for greater self-sufficiency – heated, insulated and 100% winter-ready

THERMAL COMPARTMENTS IN THE DOUBLE FLOOR

with a single-level loading compartment of up to 70 x 24 cm (W x H) with access from both sides, up to 1,000 litres of total storage volume and a raised floor height of 36 cm

REDUCED WEIGHT

with increased maximum payload thanks to high-quality lightweight construction – 16% lighter than a conventional chassis

LOW CENTRE OF GRAVITY

with uniformly level underbody for reduced body roll, high driving stability and minimal driving noise

GRP GARAGE CASING FOR HEAVY LOADS

can carry up to 450 kg with a storage volume of up to 3,800 l

HEATER IN THE DOUBLE FLOOR

is now much quieter thanks to its location and protects the tanks against extreme temperatures

HYMER PUAL 2.0

GAPLESS ELASTIC BONDING OF ROOF AND WALLS

for outstanding stability and torsion resistance that prevents ingress of water and moisture

STATE-OF-THE-ART DESIGN WITH NO THERMAL LOSS

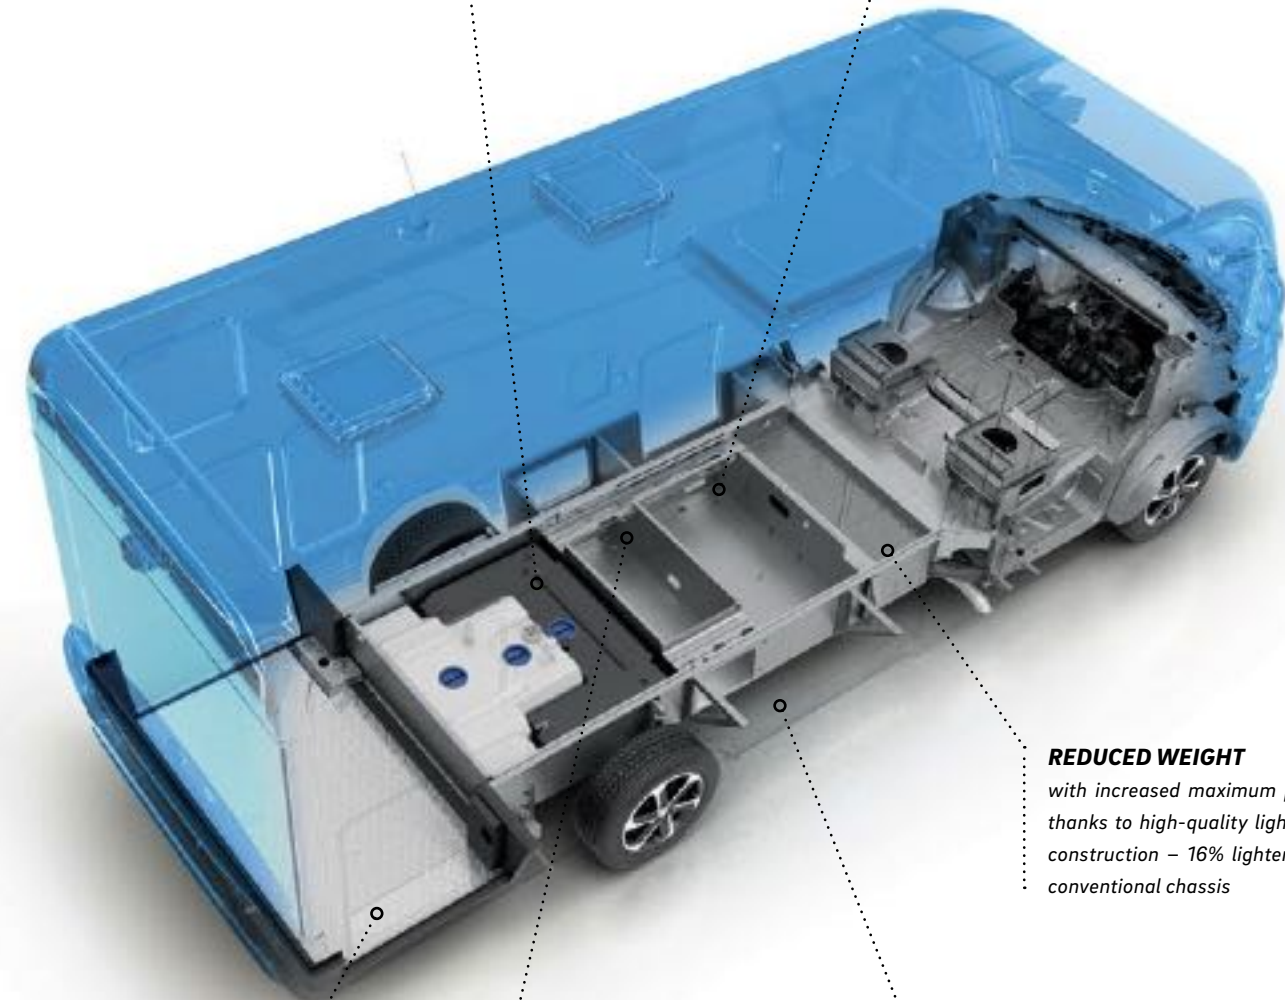

thanks to the inner and outer skin made from polyurethane foam and aluminium, which combines extreme longevity with a lower overall weight

WINTER-PROOF WITH EXCELLENT THERMAL INSULATION VALUES

A 34 mm PUAL wall is equivalent to an 80 cm-thick solid brick wall

EXCELLENT INSULATION VALUES

Perfect winter performance due to even and fast heat distribution

Note: some of the equipment shown is optional and depends on the model range/layout.

EVEN GREATER AUTONOMY WHEN TRAVELLING.

The revolutionary HYMER Smart Battery System.

There is no longer any reason to leave the perfect spot too soon. Now you can enjoy extra freedom thanks to a self-sufficient, on-board power supply system. The HYMER Smart Battery System combines the superb performance of lithium batteries with the low costs of conventional lead batteries. The result: considerably heightened performance, a significant increase in self-sufficiency, an enormous increase in the lifespan of the entire system and lower costs throughout the vehicle's service life.

THANKS TO INTEGRATED HEATER**

ALL ADVANTAGES AT A GLANCE.

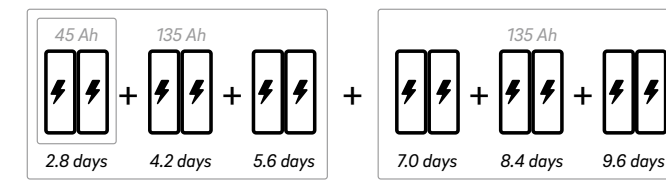

Exclusive product: Perfectly adapted for HYMER vehicles.

Improved safety: The HY-Tec battery is a lithium iron phosphate battery (LiFePO4). This means that overheating or combustion is not possible!

Improved economy: A relatively inexpensive introduction to the world of LI batteries as the existing AGM battery can continue to be used.

MODULAR SYSTEM

Simple, step-by-step expansion of the lithium units – even retro-spectively – from 2.8 to 9.8 days without shore power connection.

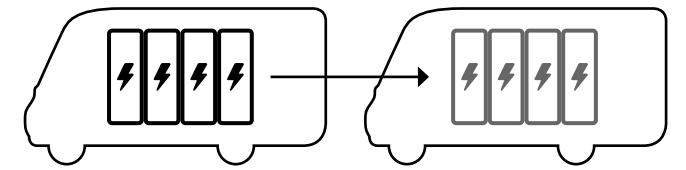

Available ex works or as a module that can be retrofitted at any time via HYMER Original Parts

Certified quality: The HY-Tec LI battery is ECE-approved has been tested by the TÜV for temperature fluctuations and vibrations.

Made in Germany: The HY-Tec LI battery is manufactured in Germany.

Easily transfer the components when changing vehicles. For more information, visit www.hymer.com

2-BLOCK

**20 KG WEIGHT REDUCTION
WITH THE SAME CAPACITY***

Perfect upgrade expansion: the HY-Tec 45 2-block is an excellent choice for customers who want to retrofit a second battery to increase the available capacity. Compared to retrofitting another AGM battery, the existing lead battery (AGM) can continue to be used and does not need to be replaced**. An optimal solution – even when replacing the AGM batteries due to wear.

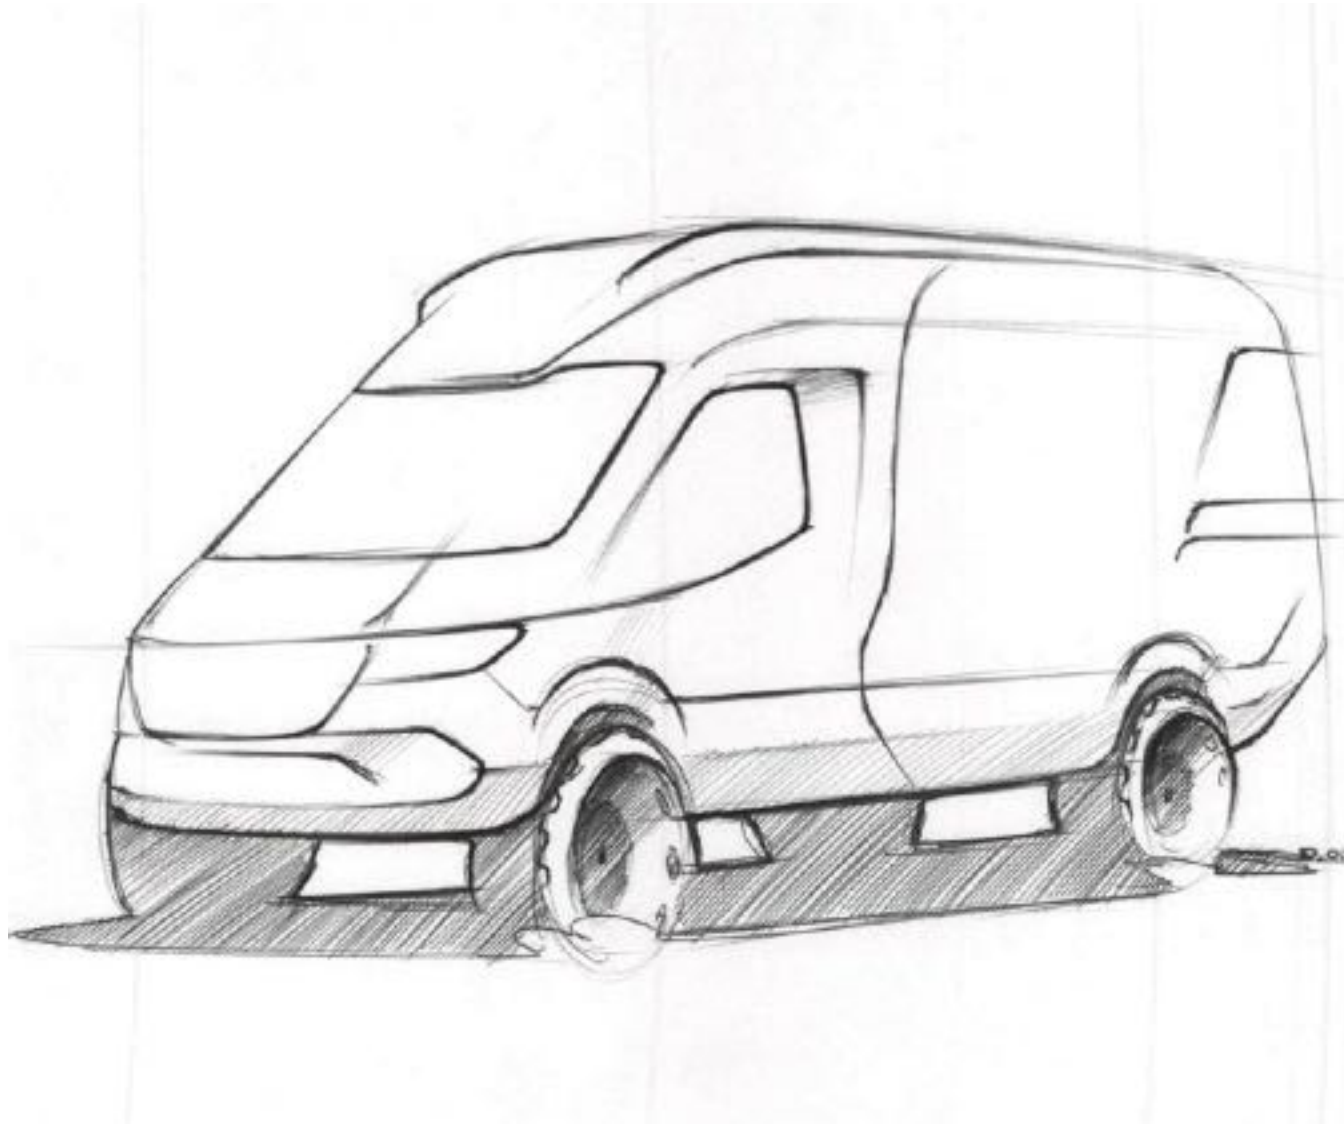

For more information, visit www.hymer.com

*HY-Tec lithium battery 45 compared to one 95 Ah AGM.

**Provided that this battery is not completely defective. Your HYMER dealer will be happy to advise you on this topic.

CLEVER DESIGN MEETS PREMIUM QUALITY.

Modern solutions from HYMER.

DESIGN

We pay special attention to the design of every single component of our motorhomes to ensure that each detail corresponds to our overarching design philosophy. This means that travelling in a HYMER is now an even more comfortable, relaxed and luxurious experience – thanks to the innovative and high-quality design, LED lights in the living area, specially developed headlights and fog lights as well as the elegant furniture concept with double-stitched felled seams made from extra thick Serabraid yarn. Perfect for your next trip – wherever it takes you.

red dot award 2019 winner

QUALITY

For our customers, every HYMER model is the perfect home from home. When it comes to ensuring that you will also share this feeling, only the best will do. We always strive for absolute perfection – from our fabrics and imitation leathers, which we source exclusively from renowned German manufacturers and trusted weaving mills in other European countries, to uniform panel gaps and perfect craftsmanship of all components, not to mention our premium materials. This is yet another reason why we not only rely on the usual ISO standards, but have also developed numerous internal test procedures over the years to ensure that each of our models is characterised by outstanding quality. These include noise tests, vibration tracks, cold chamber tests, shower tests, cooker tests, as well as inspection of the storage space doors and the tightness of the various assemblies. We do all of this to ensure that every detail lives up to our customers' expectations – so that nothing stands in the way of your trip of a lifetime.

ICON LEGEND.

Everything at a glance.

DRIVER-ACTIVATED FOUR-WHEEL DRIVE SYSTEM

An optional, driver-activated four-wheel drive system with greater traction, improved driving stability and the latest generation of ADAPTIVE ESP® means you can master every challenge in all weather and road conditions.

SHOWER

By housing the wheel arches inside the double floor, we were able to design the shower with a significantly larger level floor.

ENTRANCE DOOR

The 65 cm-wide entrance door is particularly generous and functional, providing easy access to your motorhome.

FACE-TO-FACE SEATING AREA

This seating area allows the passengers to sit directly opposite one another; the table folds away to allow access to the cab.

FRONT-WHEEL DRIVE

The front-wheel drive system is much lighter than its rear-wheel drive counterpart, which reduces the overall weight of the vehicle and allows a larger payload. The front-wheel drive is available with a 6-speed manual or 9-speed automatic transmission.

GARAGE LOADING CAPACITY

With a loading capacity of up to 450 kg, the garage can accommodate a vast amount of travel equipment, such as numerous bicycles and e-scooters.

GRP

Due to the indestructible GRP coating – for example, on the roof, rear and underbody – your HYMER is virtually immune to weather-related damage, stone impacts, road salt and dirt.

LARGE GARAGE

The garages of HYMER motorhomes include a garage door on both the left and right side as standard (available as an option for the Exsis 580 and T-Class S). This means the garage can be loaded from both sides and offers plenty of storage space – for example, for your e-bikes and e-scooters.

REAR-WHEEL DRIVE

Thanks to its powerful rear wheel drive, the HYMER displays smooth, superior handling in all traffic situations – and an extremely comfortable ride into the bargain.

100% READY FOR THE ROAD

Just get in and drive! The HYMER edition models come with a pre-configured equipment package and are thus 100% ready for the road.

PUAL BODY SHELL

In 1978, HYMER set new standards with its innovative PUAL design. The excellent insulation provided by the unique polyurethane foam guarantees a comfortable temperature all year round. Find out more on page 81.

HEADLIGHTS

The HYMER LED headlights and hybrid rear lights not only meet automotive standards but also provide increased safety day and night thanks to their optimal light patterns.

SLC CHASSIS

Our internally developed super-light chassis is specially adapted to your motorhome's specifications. The completely level underbody improves the vehicle's aerodynamics and reduces noise levels. The raised, heated double floor offers extra storage space and can be accessed from both sides. Find out more on page 80.

LEVEL THROUGHOUT

Thanks to the double floor, the vehicle also boasts a level living area floor – from the cab right through to the rear. This makes it ideal for older motorhome enthusiasts, who need no longer worry about tripping hazards.

TANK CAPACITIES

Thanks to their large volume, the fresh water and waste water tanks ensure even greater self-sufficiency while on the road. They are also heated, insulated and 100% winter-ready.

MANOEUVRABILITY

The manoeuvrability of your small, compact motorhome is a great advantage, especially when searching for a parking space or negotiating ferry crossings, car parks and narrow passages.

3.5-TON CLASS

For a motorhome weighing up to 3.5 t, you are good to go with a Class B driver's licence. The vehicle is treated just like a car when it comes to speed limits, traffic regulations, tolls and vehicle tax.

NOTE

This brochure describes the series status at the time of publication. Despite careful checking of the contents, misprints cannot be ruled out. We reserve the right to modify the equipment or make product improvements during the course of the model year. Before signing a sales contract, please ask one of our authorised HYMER dealers about the current product and series status.

Some vehicles include optional extras which are quoted in the current price list and are available at extra cost. The decoration shown is not supplied by HYMER. The details of the scope of delivery, appearance, performance, dimensions and weights are valid at the time of going to press – deviations within the factory tolerance limits (max +/-5%) are possible and permissible.

This data complies with European homologation regulations, which may change up to the time of vehicle purchase or delivery. Your HYMER dealer will gladly provide you with information on any changes and the standard scope of delivery.
